

STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

ORDER

APPLICATION 17018 PERMIT 10718 LICENSE 6550

ORDER ALLOWING CHANGE IN THE PLACE OF USE
AND AMEND THE LICENSE

WHEREAS:

1. License 6550 was issued to Leona LaBarge, Harold K. LaBarge and Ruth E. LaBarge and was recorded with the County Recorder of Napa County on April 17, 1962 in Volume 649, Page 908.
2. License 6550 was subsequently assigned to Kenneth E. and Gail S. Laird.
3. A petition for change in place of use has been filed with the State Water Resources Control Board and said Board has determined that good cause for such change has been shown.
4. The Board has determined that the petitioned change does not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.
5. The license condition pertaining to the Board's continuing authority should be replaced with the current version to conform with Section 780(a), Title 23 of the California Code of Regulations.

NOW, THEREFORE, IT IS ORDERED THAT:

1. The place of use under this license shall be as follows:

10 acres within the NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of projected Section 21, T5N, R4W, MDB&M
7 acres within the NE $\frac{1}{4}$ of SW $\frac{1}{4}$ of projected Section 21, T5N, R4W, MDB&M
15 acres within the SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of projected Section 21, T5N, R4W, MDB&M
8 acres within the SW $\frac{1}{4}$ of SW $\frac{1}{4}$ of projected Section 21, T5N, R4W, MDB&M
40 acres total
2. The license condition pertaining to the Board's continuing authority is replaced with the following to conform with Section 780(a), Title 23 of the California Code of Regulations,

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to: (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest and is necessary to preserve or restore the uses protected by the public trust.
